

iPlan Corporate Profile

At iPlan, we work for the joy and adventure of being a trusted member of our client's team. For us, it's personal.

WHAT WE DO

We empower our clients by making complex business processes and advanced technology work for *them* in *their* environment with *their* people.

We are experts in **business process design and implementation.**

We **design** our clients' to-be business process blueprints; then **build** and **implement** system solutions that work optimally with modern technology; and we **enable** successful transition of the people organization through a discontinuous change event such as a Go-live. We **project manage** complete ERP and similar business system implementation projects for our clients; and we do much more.

WHO WE ARE

We are a group of enthusiastic professionals who own our own business.

iPlan have more than 50 consultants: mostly industrial engineers, accountants and information technology experts. We average 1.2 university degrees per employee and our average age is 34.

IPLAN GLOBAL

We work as part of our client's team at our client's premises wherever we may be needed for the duration of the project.

Our icon symbolizes a globe to indicate the personal willingness of our mobile professionals to relocate anywhere. Our regional offices at various locations in South Africa, Australia and America are coordination centres; the real work happens at our clients' sites.

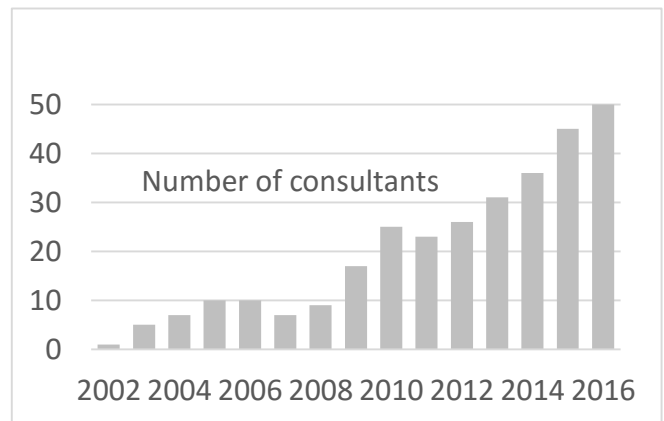

BUSINESS PROCESS
DESIGN AND IMPLEMENTATION

We have a track record of projects in the USA, the UK, Australia, Japan and Hong Kong; the whole of South Africa; and other African locations including Uganda, Namibia, Tanzania, Nigeria, Zimbabwe, Mozambique, Zambia and the Congo.

CORPORATE DATA

iPlan was founded in 2002 and has been profitable every year. We have no parent company and no external debt; all growth is funded from revenue.
